ABOUT ME

Software Analysis and Development Technologist with hands-on experience in technical support, maintenance, and software development in real environments. I have worked on bug fixing, process optimization, SQL administration and queries in PostgreSQL/MySQL, server management using Linux + PuTTY, version control with Git/GitHub, and technical documentation. I also have experience in web development (HTML, CSS, JavaScript, PHP) and process automation, focused on functional, scalable, results-driven solutions. Additionally, I have experience in digital marketing, supporting conversion-focused landing pages, CTA integrations (WhatsApp/forms), campaign content optimization, and visual content creation/editing with the help of AI tools for social media and web publications.

TECHNICAL SKILLS

- Languages: JavaScript, PHP, HTML, CSS, SQL
- Databases: MySQL, PostgreSQL
- Backend: PHP (CRUD, sessions, forms, DB connection with PDO)
- Frontend: Responsive layout, UI components, UX/UI improvements
- SQL: Queries, joins, inserts, updates, creation/modification of tables and views
- Automation: n8n (workflows, integrations, automation with AI agents)
- Systems: Technical support, troubleshooting and bug fixing, basic deployments
- Digital marketing: Conversion-focused landing pages, campaign content optimization, CTA integration (WhatsApp/forms), support in social media management and promotional materials

EDUCATION

- High School / Secondary Education — Colegio Pablo Neruda
- Systems Technician — Servicio Nacional de Aprendizaje (SENA)
- Software Analysis and Development Technologist — Servicio Nacional de Aprendizaje (SENA)
- Basic Programming Course — Platzi & APPS.CO
- Basic Office Tools Course I — Servicio Nacional de Aprendizaje (SENA)
- Software Architecture Course
- n8n Master: AI Agents and Automations

SOFT SKILLS

- Analytical thinking and problem-solving
- Willingness to learn and adapt quickly
- Responsibility and professional ethics
- Collaborative work
- Initiative and autonomy
- Clear and assertive communication
- Organization and time management
- Attention to detail and quality focus

WORK EXPERIENCE

Software Support & Development — Clínica Medical Duarte (6 months)

- Bug fixing in an enterprise clinical system.
- PostgreSQL database management and maintenance.
- Creation and modification of tables, views, and SQL queries.
- Data validation and integrity control.
- Server access and management via PuTTY (Linux).
- Version control and deployment of changes in real environments.
- Process optimization and resolution of technical issues.
- Technical documentation and tracking of system adjustments.

Web Developer — Bodega Portilla (2 years)

- Creation and maintenance of web content and sales-oriented sections.
- Web development with HTML, CSS, and JavaScript (responsive approach).
- Visual optimization and UX/UI improvements to increase conversion.
- Integration of forms, contact buttons, and CTAs (WhatsApp/forms).
- Support for campaigns and social media content, ensuring visual consistency.
- Creation and editing of graphic material, including assets generated with AI tools for web and social media publications.

Freelancer — Landing Page Development (1 year)

- Design and development of conversion-focused landing pages for lead generation.
- Implementation of sales funnels for acquisition, follow-up, and closing.
- Integration of forms, contact buttons, automation, and social media connection.
- Responsive optimization and UX improvements focused on conversion.
- Digital solutions for entrepreneurs and small businesses oriented toward growth and sales.
